

Choose your North Star wisely

Just as the time-lapse image above shows how all the stars revolve around the fixed point of the North Star, in all our lives we revolve around certain fixed points of belief. That belief will then determine our everyday choices, actions, and the consequences of them.

If we believe that we are the most important person in the world, that the world owes us love and success, our lives will move in directions that will spin a petty, small world with us at the center.

If we believe money is the way to happiness and fulfilment, if we believe our job or hobby or even a person we care for is the most important thing, our lives will revolve narrowly around that.

If we think the most important thing in life is having fun we'll either spin out of control or move in ever more meaningless directions.

At your graduation, consider that there is only one North Star worthy of the focus of your life now and forever. That is the North Star of knowing Jesus as your Savior and living in obedience to his Word. When you know his Word well your life will have direction, focus, and fulfilment, even though it may be difficult at times.

When you live like that you play to an audience of One, the Lord Jesus. Though at first it may seem hard, it is ultimately relaxing and fulfilling because only Jesus loves you totally, always helps you make wise decisions, and will always be with you in every moment of life, death, and forever.

Graduation is a great time to make life decisions. Choose your North Star wisely. The direction, fulfillment, and joy of your life and eternity depend on it.
